

KAPLAN MEDICAL

Your pathway to medical licensure in the United States

Why Choose Kaplan Medical?

EXCLUSIVE SERVICES

Kaplan Medical is the leader of USMLE Prep by constantly creating innovative new products and services. We are proud to introduce a new series of personalized services and exclusive resources to help you attain the highest score possible on the USMLE exam series, and to provide you with the keys to securing your residency.

- Work with a Kaplan Medical Advisor at your study Center to create a detailed study plan for your USMLE studies.
- Learn more about the medical residency process through local events and workshops.
- Utilize the most comprehensive study tools and resources at either a Kaplan Center or through our online programs.

EXPERT FACULTY

Our faculty is composed of U.S. medical school faculty and practitioners who are acclaimed lecturers in their respective fields. They have unique insights into the high-yield content and how it is tested on the USMLE.

HIGHEST-YIELD CONTENT

Kaplan Medical's research team selects topics for review that are most likely to be tested and are most important for exam success. We offer a variety of options designed to meet your individual study needs and preferred learning style, including live lecture courses, center-based study, online resources, or combination courses.

Pathway to Medical Licensure in the U.S.

All About the Exams

Program	Exam Content	Duration	Minimum Score to Pass
Step 1	Basic Medical Sciences	8 hours / 322 questions	188
Step 2 CK	Clinical Knowledge	9 hours / 346 questions	189
Step 2 CS	Clinical Skills	1 Day / 12 patient encounters	Pass / Fail
Step 3	Patient Management Skills	2 Days / Approx 480 questions	187

USMLE Course Options

The most comprehensive study Deluxe Prep

Step 1
Step 2 Clinical Knowledge
Step 3

Excellent for students who would like to take advantage of the structure and peer interaction found in live lecture courses. With this course you can combine the benefits of attending dynamic, live lectures with the more flexible center-based resources of Structured Self Study. You will select a 7-week, 14-week or 16-week live lecture series for Step 1 (6-weeks for 2 CK or 12 days for Step 3), where you will participate in a classroom environment with our expert faculty and study the most relevant exam content. This combination course has all that you need to succeed: high-yield content covered in both live and self-study formats, access to Qbank for exam-style questions and the revolutionary Personal Learning System with full-length, simulated exams. In addition, trained residency advisors will assist you in mapping out your residency timeline and planning your studies accordingly throughout your enrollment.

Choose to follow Step 1 over a period of 4, 7 or 10 months with the following live lecture options:

7 week live lecture option: Live lectures are generally delivered 5-days per week during the day incorporating 50 minutes of class with hourly breaks.

14 week live lecture option: This lecture series encourages greater interaction by following structured live lectures in the mornings with facilitated small group sessions in the afternoons. In the facilitated small group sessions, you will discuss the topics covered in the morning lecture in greater detail.

16 week live lecture option: This option is similar to the 14-week option described above, but also includes 4 days of foundation conceptual based lectures framing the basic sciences in a clinical context, 4 days of Integrated Cases and one-hour small group faculty review after each lecture.

Step 2 Clinical Knowledge courses are 4 and 7 months only with 6 weeks of live lectures.
Step 3 DeluxePrep is 4 months with 12 days of live lectures.

Structured Self-Study Center Prep

Step 1
Step 2 Clinical Knowledge
Step 3

This is an excellent option for students who prefer flexible self-study without the live lectures. Students prepare in a dynamic study environment with other International Medical Graduates. While in the US course, you will access Kaplan's extensive center resources at your own pace and utilize our review materials.

You will receive a complete set of lecture notes and review key concepts with unlimited access to recorded lectures. Available at 21 Kaplan locations in the US plus Canada.

Choose to follow Step 1 over a period of 3, 6 or 9 months.

Step 2 CK courses - 3 and 6 months.
Step 3 Center Prep is 3 months.

Self-Study Online Prep

Step 1
Step 2 Clinical Knowledge
Step 3

Prepare for the Step 1 exam anywhere you have access to the internet with Kaplan's OnlinePrep. This new web-based course includes access to our full Step 1 video library, featuring nearly 200 hours of recorded video lectures delivered by our expert faculty.

This course works best for medical students who require no classroom instruction and no interaction with professors and who are extremely independent. This course provides a flexible study schedule. If you are in need of a more comprehensive review option and prefer interaction with your peers and our advising team, our Step 1 CenterPrep course may be a good fit for you.

Step 2 Clinical Skills

Our Clinical Skills review courses feature hands-on interactive learning through guided patient encounters with our expert instructors. You will receive feedback from standardized patients, step-by-step instructions and time management strategies. You will also receive training and individualized coaching in:

- Effective physician/patient communication
- Conducting a relevant patient history
- Performing a focused physical exam
- Writing a concise and clear patient note

Step 2 Clinical Skills 5-Day Course: 5 full days with 1 full-length simulated exam
Step 2 Clinical Skills Practice Exam: 1 full day with 1 full-length simulated exam
